

# RUBIN

## How to Integrate Emerge with Rubin with Sakai

### *Step 1: Add Emerge with Rubin as an external tool*

Note: Depending on your Sakai configuration, a Sakai administrator may have to perform these steps from the Administration Workspace.

1. Inside your Sakai course site click on **Site Info**
2. Click on **External Tools**
3. In the upper right-hand corner click "**Install LTI 1.x Tool**"
4. In the External Tool configuration page, enter the following information:
  - a. Set the **Tool Title (Above the tool)** to be Emerge with Rubin
  - b. Click Allow to **Allow tool title to be changed**
  - c. Change the **Button Text (Text in tool menu)** to Emerge with Rubin
  - d. Leave the **Description** blank
  - e. Set the **Launch URL** to the URL the Rubin team provides
  - f. Set the **Launch Key** to "rubin"
  - g. Set the **Launch Secret** to the shared secret the Rubin team provides
  - h. Under **Privacy Settings** check both "Send User Names to External Tool" and "Send Email Addresses to External Tool"
  - i. Scroll down, and under **Launch in Popup** set to Always launch in popup
5. Click **Save** to add the external tool

## Step 2: Create an easy way to visit the Emerge with Rubin home page

1. Inside your Sakai course site click on **Site Info**
2. Click on **Manage Tools**
3. At the bottom click **External Tools**
4. Click the checkbox next to **Emerge with Rubin**
5. Click **Continue**
6. Click **Finish**

## Step 3: Assign an individual item from Emerge with Rubin

**You can make any item in the Emerge program a simple, one-click-to-access item in your Sakai course. Here's how.**

Instructors: Adding a link to specific content at Rubin Education

1. Go to a page in Rubin Education that you want to link. **Copy the full name of any item** inside a module (example as shown below – **Assignment: Texting vs Emailing**). Items include Video, Activity/Assignment, Reading, Quiz and Pre- and Post-test and are labeled as such. For a reference point, here's the list of items from the Email Etiquette module:

2. Copy the title of that page to the clipboard.

3. In your Sakai course site go to the **Lessons** tool (if you don't have Lessons, click on Site Info>Manage Tools and add Lessons).
4. Click on the plus-sign next to **Add Content**.
5. Choose **Add External Tool** from the bottom.
6. Select Emerge with Rubin.
7. Paste the title into Tool Title.
8. Click **Save**.

Note: this link will open "in the browser frame" instead of starting a new tab. To change this:

1. Click the "Edit" icon (the square with the pencil icon) to the right of the link you just added.
2. Under "How should this item be displayed?" click "New Window: in a new window" so the link opens in a new window.
3. Click **Update Item** to update the item.

#### *Step 4: Have students access Emerge with Rubin for the first time*

1. When students click an Emerge item from Sakai, they will be taken to that item while still inside Sakai. They do not log into Emerge separately.

**If students need to purchase access on their own, the material will remain hidden until purchase.**

2. From the Emerge with Rubin home page, click "Step 1" to purchase course access. Once you purchase, copy the access code you see on the thank-you page.
3. Return to the program home page and click "Step 2" to enter the access code. Then, paste the access code in the box. Click "Submit."
4. You will return to the program home page and see all the content is now available.
